

Displays, Carts & Tools

From a simple customer request for a potting station in 2006, BCI has created a line of the most innovative plant and pottery display solutions available in the United States. Often classified as “industrial chic,” each decorative display features stained board decking that fits into a one-piece steel frame, resulting in a stylish interplay of wood against metal. We’ll be glad to powder coat your display any color at minimal cost or customize it to meet your store’s configuration. Our extremely popular tools and carts reflect the same quality exhibited by the other commercial steel products produced in Lexington and imported from around the world. Border Concepts supplies steel edging, galvanized steel paver restraints, two-wheel and four-wheel nursery carts, farm wagons, custom fabricated carts and tracking trailers.

Displays Two Tier

Photo showing: 2 – 70004, 1 – 70002, 1 – 70001

How to Order

Step One: Select the Base. The bases are painted black and packed 100 pieces to a pallet. Custom colors may be ordered for 500 units or more.

Step Two: Select the size of Sign Card Holder Top. Tops purchased in cases of 25. The tops are only available in black. Please select the part numbers of the tops desired. Remember that the first number is the horizontal dimension (landscape dimension).

Custom colors and heights are available (4 to 6 weeks lead time required).

Features

Base Advantages:

- Designed for easy nesting and storage
- Solid steel bases for maximum stability
- Heavy duty steel construction
- Ease of use near plants
- Custom colors, custom heights

Plastic Holder Advantages:

- Reusable heavy gauge plastic holders
- Easily removable, channeled back and sides
- Weather resistant
- Resilient to wide range of temperatures
- Flexible for off season signage changes
