

Eco Planters®

Eco Planters

We've gone green with these fabulous biodegradable planters. Eco Planters are an environmentally sound alternative to plastic pots, made from agricultural materials such as rice husks, corn husks and bamboo pulp. These recycled materials are blended with an eco-friendly colorant and cornstarch, then heat-pressed to form the pots. Designed for both indoor and outdoor use, Eco Planters are strong, lightweight and weather resistant. Under normal conditions, each pot has a 3-5 year life span. After use, just crush or break the planter, then dispose of it directly into the soil or compost.
